

OVERSEED PROGRAM

Nutrient program for establishment and winter maintenance of overseeded turf.

ESTABLISHMENT

Apply every 10 to 14 days until sufficient turf cover is achieved.

12-4-6 Balanced nutrient package with bio-based nitrogen sources, seaweed and humic acids. Greens love the controlled turfgrass growth response and improved tolerance to traffic and cold temperature stress. **Rate:** 3 to 6 oz per 1000

Talon Provides key micronutrients and a unique bionutritional package. Talon will increase overall plant metabolism specific to warm season turf. Contains Ca, Fe, Mg, Mn, Zn, Cu and B. **Rate:** 1 to 3 oz per 1000

Nautico Verde Concentrated, cold-processed seaweed extract supplies multiple carbon sources for better root development, improved photosynthesis and increased plant antioxidant production. **Rate:** 3 oz per 1000

Zeta \times Plex[®] Calcium Calcium uptake is enhanced with plant derived L-amino package. This combination provides better rooting, cell strength, plant hardiness, carbohydrate conservation and improved plant respiration. **Rate:** 2 to 3 oz per 1000

WINTER MAINTENANCE

Designed to deliver nutrients and plant extracts for extended color and controlled growth through winter months. Plants will remain hardy and tolerant to traffic.

12-4-6 Balanced nutrient package with bio-based nitrogen sources, seaweed and humic acids. Greens love the controlled turfgrass growth response and improved tolerance to traffic and cold temperature stress. **Rate:** 3 to 6 oz per 1000

Energy Blend of Fe, Mn and Zn in an organic acid chelate formulated with sugars that hold nutrients in solution. Increases chlorophyll production and provides sugars to plant and microbes. Brilliant and long lasting color for your turf. **Rate:** 3 oz per 1000

Zeta \times Plex[®] Potassium Unsurpassed foliar availability of potassium for proper plant-water relations and cell turgor pressure. Allows plant to respond optimally during salt stress, drought and traffic pressures. **Rate:** 3 oz per 1000

OPTIONAL: Zeta \times Plex[®] Grow 40 **Rate:** 0.5 to 1 oz per 1000
